NANO SILVER
TECHNOLOGY

ANTI BACTERIAL | ANTI FUNGAL | ANTI SCRATCH

What is Nano Silver Technology?

Since a long time ago silver has been used for disinfectant due to its natural antibacterial and antifungal properties.

When bacteria and fungus in contact with the nano silver, it will inhibits multiplication and growth of the bacteria and fungi which cause infection, odor, itchiness, and sores.

The nano silver technology that applied to this premium luxury tile Space series also makes the plank more level and easier to clean so it could resists fungus's developing.
